

# Who We Are

## Background

The Chinese Bridge has been an important meeting place for Chinese seniors in The Hague for many years. It is a safe and welcoming space where they find support, companionship, and connection. Due to recent budget cuts by the Municipality of The Hague, this cherished place is now at risk of disappearing.

We ask for your support to help preserve this community.

With your contribution:

- You ensure that our seniors are not forgotten.
- You help keep the sense of home, dignity, and culture alive.
- You demonstrate leadership and commitment within the Chinese community in the Netherlands.

Together, we can make sure that The Chinese Bridge continues to exist.

Let's give our seniors the care and respect they deserve.

## Mission

Since its founding in 1987, The Chinese Bridge has been committed to supporting the Chinese community in The Hague and the surrounding areas. We assist vulnerable individuals, encourage everyone to participate, connect with one another, and care for each other.

## Values

We see the well-being of our target group as our highest goal. We bridge barriers such as language, culture, and understanding of background. Health, friendship, and autonomy are our top priorities. Meeting others is a key factor: connecting with neighbors and people from other cultures broadens horizons and keeps people vital. This is the heart of our vision of well-being, in which good health and care in a familiar environment are essential.
